This video was made to demonstrate how educators and their students (or anyone else) can make a simple relay out of common shop tools and supplies. I made this so students can build their own ...

Making a Simple Relay

Zusie - My Relay Computer I amuse myself by constructing a computer almost entirely out of relays. Relays were used to construct computers well before vacuum tubes, transistors or integrated circuits were feasible for the task. The main inspiration is the machines by Konrad Zuse of the late 30s and early 40s. Quick feature list: 8-bit data bus and 16-bit address bus; 3 x 8-bit accumulator ...
