Mr. Domagalski / Unit 12- Probability

This review organizes and presents information on building performance in terms of damage probabilities. These probabilities are the elements of matrices which quantify the uncertain relationship between the amount of building damage and the intensity of ground shaking. They are a basic component of the input to an analysis aimed at

Robert V. Whitman Eduardo B. Kausel

In this lesson students use the probability scale to rate how likely an event is to happen. Students then convert this scale into one involving percentages and work with probabilities in units of p...
