Fun With Predicting Reaction Products

Fun With Predicting Reaction Products Predict the products of each of the following chemical reactions. Keep in mind that while we can predict the products of these reactions, we don't really know for sure that they can happen. We will learn in the next section how to check whether or not these reactions will actually happen...

Fun With Predicting Reaction Products

Chemistry students typically experience difficulty in predicting the products of chemical reactions. With practice, however, the process becomes progressively easier. The first step---identifying the type of reaction involved---is usually the most difficult. The primary reaction types students encounter are ...

PREDICTING REACTION PRODUCTS: REPLACEMENT REACTIONS! A metal will not always replace a metal in a compound dissolved in water because of differing reactivities ! An activity series can be used to predict if reactions will occur ! To replace a metal, the other metal must be MORE REACTIVE ! Same applies for halogens ! To predict the products: Replace the single element with the corresponding element ...
