The "Self-Assessment Color Review"  
collection is very nice and I can  
recommend the reptile and amphibian  
one. In my opinion, this book is not  
intended to give you a profound and  
detailed picture of the diseases but it  
more or less tries to confront you with  
real-life situations. Excellent for students  
or clinicians who want to deepen or  
broaden their interest.
